mp4 But I want to download all the.mp4 files from that path, how can I do it using curl? A: Here is a bash shell script. This script is called from the windows command prompt with arguments to save. `#!/bin/bash filename="saved-script.txt" for file in *.mp4 do printf "%s " "$file" >> "$filename" done save "saved-script.txt"` High-performance organic light-emitting diodes using a novel a-Si:ZnO:C:H thin-film buffer layer. A novel a-Si:ZnO:C:H thin-film buffer layer is investigated for use as an optical filter layer in organic light-emitting diodes (OLEDs). The ZnO:C:H thin film layer was deposited by plasma-enhanced chemical vapor deposition (PECVD) using a mixture of CH<sub>4</sub>, O<sub>2</sub>, and Ar gases. The ZnO:C:H thin film possessed a density of free electrons and holes (E(H)) of 1.9 × 10<sup>19</sup> cm<sup>-3</sup> and a carrier concentration (n(H)) of 5.7 × 10<sup>14</sup> cm<sup>-3</sup>, which were much higher than those of the a-Si:ZnO thin-film buffer layer. Thus, the ZnO:C:H thin-film buffer layer enabled enhancement of the current density by increasing the number of holes reaching the ZnO:C:H layer, resulting in an enhancement of the luminance of the OLEDs by up to 64.9% compared with the devices without a buffer layer. to have a fair hearing is "that the impartial officer is present and hears the parties and their witnesses." Id. The Court concluded that the record conclusively demonstrated that the impartial officer was not present. Our Court of Appeals has applied these principles in interpreting an extradition statute which was similar to our statute. In *Habermelk v. State*, 22 Md. App. 221, 320 A.2d 109 (1974), the Court of Appeals considered the effect of an extradition magistrate's failure to receive the evidence in an extradition proceeding. The Maryland statute was similar to our statute in that it provided for review of the magistrate's determination by a Superior Court judge. Id. at 82157476af
